

Use the completed division problem to answer the question.

Answers

1) At the carnival, three friends bought twenty-three tickets. If they wanted to split all the tickets so each friend got the same amount, how many more tickets would they need to buy? $23 \div 3 = 7 \text{ r}2$

1. _____

2) A container can hold seven orange slices. If a company had forty-five orange slices to put into containers, how many more slices would they need to fill up the last container? $45 \div 7 = 6 \text{ r}3$

2. _____

3) Jerry was trying to beat his old score of thirteen points in a video game. If he scores exactly three points each round, how many rounds would he need to play to beat his old score? $13 \div 3 = 4 \text{ r}1$

3. _____

4. _____

4) A vat of orange juice was thirty-nine pints. If you wanted to pour the vat into four glasses with the same amount in each glass, how many pints would be in each glass? $39 \div 4 = 9 \text{ r}3$

5. _____

6. _____

5) A movie theater needed sixty popcorn buckets. If each package has nine buckets in it, how many packages will they need to buy? $60 \div 9 = 6 \text{ r}6$

7. _____

8. _____

6) A machine in a candy company creates twenty-one pieces of candy a minute. If a small box of candy has six pieces in it how many full boxes does the machine make in a minute? $21 \div 6 = 3 \text{ r}3$

9. _____

10. _____

7) A librarian had to pack forty-five books into boxes. If each box can hold eight books, how many boxes did she need? $45 \div 8 = 5 \text{ r}5$

8) An airline has fifteen pieces of luggage to put away. If each luggage compartment will hold two pieces of luggage, how many will be in the compartment that isn't full? $15 \div 2 = 7 \text{ r}1$

9) It takes three apples to make an apple pie. If a chef bought seventeen apples, the last pie would need how many more apples? $17 \div 3 = 5 \text{ r}2$

10) A baker had three boxes for donuts. He ended up making seven donuts and splitting them evenly between the boxes. How many extra donuts did he end up with? $7 \div 3 = 2 \text{ r}1$
