

Examining Number Value by Place Value

Name: _____

Solve each problem.

- 1) What is the value of the 7 in the number 867,145?
- 2) What is the value of the 1 in the number 81,563,247?
- 3) What is the value of the 5 in the number 65?
- 4) What is the value of the 2 in the number 412?
- 5) What is the value of the 8 in the number 6,821?
- 6) What is the value of the 4 in the number 1,348,765?
- 7) What is the value of the 1 in the number 1,492?
- 8) What is the value of the 1 in the number 197,346?
- 9) What is the value of the 4 in the number 956,248?
- 10) What is the value of the 6 in the number 2,647,315?
- 11) What is the value of the 1 in the number 154?
- 12) What is the value of the 9 in the number 97,826?
- 13) What is the value of the 9 in the number 9,518,742?
- 14) What is the value of the 8 in the number 8,146,923?
- 15) What is the value of the 6 in the number 18,462?
- 16) What is the value of the 5 in the number 3,572?
- 17) What is the value of the 8 in the number 81,295?
- 18) What is the value of the 5 in the number 519,736?
- 19) What is the value of the 8 in the number 5,418?
- 20) What is the value of the 6 in the number 67?

Answers

1. _____
2. _____
3. _____
4. _____
5. _____
6. _____
7. _____
8. _____
9. _____
10. _____
11. _____
12. _____
13. _____
14. _____
15. _____
16. _____
17. _____
18. _____
19. _____
20. _____

Answers

1. **7,000**
2. **1,000,000**
3. **5**
4. **2**
5. **800**
6. **40,000**
7. **1,000**
8. **100,000**
9. **40**
10. **600,000**
11. **100**
12. **90,000**
13. **9,000,000**
14. **8,000,000**
15. **60**
16. **500**
17. **80,000**
18. **500,000**
19. **8**
20. **60**
